PROFESSIONAL EXPERIENCE

Since October 2014: PhD in Public Health, Epidemiology, University of Paris Sud/ Paris Saclay

Thesis Title: Maternal obesity before pregnancy, breastfeeding and maternal postpartum weight change.

Supervisors: Professor Katia Castetbon and Doctor Jean-Claude Desenclos.

Others professional activities during the PhD:

- **During my PhD, I have led with other PhD candidates an international and interdisciplinary seminar** "Perinatal intervention and the offspring's health: the role of feeding and its determinants", in Villejuif, December 3, 2015.
- I have also carried out a set of online tutorials, to explain tools and process in a French national cohort, for patients and researchers (Respiratory and Environmental Epidemiology Team - Centre for Research in Epidemiology and Population Health).

Research interests: women and infant's health, infant feeding, postpartum period and social inequalities.

2014: Internship (6 months) in the Nutritional Surveillance and Epidemiology Team, Bobigny, France

Aims: To describe the introduction of complementary food during the first year of life in France in 2012-2013 and the socioeconomic factors associated.

2009-2013: Midwife in the Maternal and Child Protection and Family Planning centres, in La Courneuve (Seine Saint Denis, France).

2007-2009: Midwife in medical offices.

2007: Midwife in maternity ward, Regional Hospital of Le Mans, France.

EDUCATION

2013-2014: Master 2 "Methods and Biostatistics in Public Health and biomedical researches", University of Paris Sud/Paris Saclay, graduated with the qualification "Very Good".

2012-2013: Master 1 "Methods in Public Health", University of Paris Sud/Paris Saclay, graduated with the qualification "Very Good".

2002-2007: Bachelor of midwife, University of Medicine, Poitiers, France.

2002: French Bacalaureate, obtained with the qualification “Good”, in Robert Garnier High School, La Ferté Bernard, France.

SKILLS

Skills in research project management, data analysis, writing and presenting reports, writing scientific papers.

Computing skills: Stata, R, Excel, Office.

Language: French (Native), English (Professional).
